

PS PATROL[®] SYSTEM

NEW Elapsed Time Meter and Duo Alarm Options!

U.S. Patent No. 7,218,511
Patent Pending on ETM
with Plug Assembly

120V PS Patrol[®] models can now be ordered with an Elapsed Time Meter (ETM) and Two Alarms (Duo)!

The PS Patrol[®] pedestal alarm system features a **built-in high water alarm** and provides a convenient location to connect wiring required for pump station applications. All electrical components are **pre-wired** in a **weatherproof post** for protection from the elements; **no external cords**. **Vent holes** help prevent **moisture condensation** inside the post.

The 120V PS Patrol[®] alarm system is now available with a **factory-installed Elapsed Time Meter (ETM)** and/or a **Duo alarm** feature. The **ETM** allows user to log pump run information. The **Duo alarm** feature monitors two level conditions: High Water Alarm and Alarm 2 (filter). The **factory-installed terminal block** provides an easy connection and offers a cleaner, faster installation.

P/N	Description
1022575	PSP, 120V, Elapsed Time Meter (ETM), SJE SignalMaster [®]
1022576	PSP, 120V, Duo Alarm w/Vertical Reed Switch, SJE SignalMaster [®]
1022577	PSP, 120V, Elapsed Time Meter (ETM), Duo Alarm w/Vertical Reed Switch, SJE SignalMaster [®]
