

Build-A-Panel™ Plus Control Panel Program

Expanded Build-A-Panel™ Control Panel Program

This program is designed to benefit customers who require additional options beyond what the standard control panel line offers, but do not require a custom engineered solution.

The Build-A-Panel™ Plus program utilizes inventoried components for:

- Quick response to quotes (within 24 hours is standard)
- Faster build-to-ship times (2-3 weeks based on options)
- More affordable solutions
- And much more!

OPTIONS

- Larger enclosure sizes up to 30 x 24 x 16 inches, including fiberglass, Type 304 and 316 stainless steel, and Type 4 painted steel
- Inner dead front doors, including clear and aluminum; indicators, ETMs, ECs, customer supplied relays can be door mounted
- IEC magnetic motor starters (65 amps max. per pump)
- 22mm switches and lights
- Lag pump time delay
- 3 and 4 pump applications
- Smart relay/PLC with programs (limited I/O, 12 in and 8 out, discrete only); timed or demand dose programming; pump and alarm data logging upon request
- Auxiliary contacts for many functions
- Installed auto dialer
- Battery backup circuits
- 12 VDC and 24 VDC circuits
- Wire colors to reflect different volt circuits
- GFI receptacle with circuit breaker (single phase or 230V 4-wire service only)
- Timed dose for intrinsically safe, three phase and more
- 208/240V single phase incoming power
- Surge protection
- 24 hour, 15 minute increment timer
- UL/cUL Listed
- Two-year limited warranty

ADDITIONAL OPTIONS

Don't see the option you need listed? Let us know!

We may be able to offer it through this program or we can design a custom engineered solution for you!
