SJE PUMPMASTER® QUICK FIT

Easy-to-Install Pump Switch

Function

The SJE PumpMaster® Quick Fit mechanically-activated, wide-angle pump switch is designed for direct control of pumps in water and sewage applications.

The float and piggy-back plug are separate to allow for quick fit installation by routing the float cord through conduit and heat shrink, then attaching the piggy-back plug by inserting the quick connect terminals and applying the protective heat shrink.

Features

- Piggy-back plug and float are separate to allow for quick fit installation
- Available in 13A or 15A 120V configurations
- Heavy-duty contacts
- Includes standard mounting clamp, heat shrink and boxed packaging
- Adjustable pumping range of 7-36 inches (18-91 cm)
